A recent study showed that people who ate five servings (about 2 - 4 cups) of fruits or vegetables a day had a 13% lower risk of death from any cause.<sup>4</sup>

13%

BE CONSISTENT

Craving that afternoon bag of chips? Try a small serving of nuts instead. Their high fiber and omega-3 levels help keep your heart healthy.<sup>3</sup>

STAY STRONG

Think minor changes instead of major ones. Throw a handful of blueberries into your morning bowl of cereal, or have some raw carrots alongside your lunch.<sup>2</sup>

START SMALL

Know what healthy looks like to you, and find little ways to get ahead of it.

PREVENTIVE CARE IS A PIECE OF

FRUIT

2 CUPS  
PER DAY OF FRUIT

Eating a diet rich in fruits and vegetables can help reduce the risk of many leading causes of illness and death, including heart disease, type 2 diabetes and some cancers.<sup>1</sup>

STARTING SMALL IS

STARTING STRONG.
